Testimonial on CDM

The CDM team has been assisting Sausage Saloon with shop fitting for the past 6 years and has successfully shop fitted close to 40 stores nationwide and also in Namibia.

The team has been very professional offering the service from:
Store design to compliance certification to business registration.
A complete turn-key experience.

The aftersales service is also at record turnaround time.

To date they not missed a single deadline set by themselves and mall managements

They offer a project manager that handles all legal requirements from start to sign off on site.

If there is any other clarification required, please contact me directly and you are most welcome to visit any off the Sausage Saloon stores anywhere in the country to see the standard of workmanship delivered by the CDM team.

Kind regards

Kamal Singh
